Memorandum for the Record.

subject: Proposal Retrofit for
Gamma I Rectifier.

1. Problem — Is there a requirement
to retrofit the Gamma I
rectifier to give accurate position
information with the 6000 series
films?

2. Background — The agency has
a Project no. 997012 jointly with
the Army map service ([redacted] STA
140-2701) for the development
of the Gamma I Rectifier
OSA
under Contract no BB-425 STA

[redacted]

Approved for Release 2002/08/06 : CIA-RDP78B04747A003200010024-7

Approved For Release 2002/08/06 : CIA-RDP78B04747A003200010024-7

STAT [redacted]

This contract was initiated 30 June 1962 for two units. The total cost of the contract is now STAT [redacted] with the agency furnishing the bulk of the funds.

3. Status— The two units have been received and technically accepted by Army Map Service.

STAT [redacted] is preparing an acceptance inspection report on the units it should arrive here during

Approved For Release 2002/08/06 : CIA-RDP78B04747A003200010024-7

the week of 14 Nov.

The only thing remaining on this contract is delivery of the final report after which the project will be terminated.

4 Discussion — The attached

STAT [redacted] Proposal ~~No. SH65-~~ no. SH65-9217-345 was here received on 6 October 65 for evaluation and coordination. The matter was discussed with

STAT [redacted] of Army Map Service on 5 NOV 65 at which time

Approved For Release 2002/08/06 : CIA-RDP78B04747A003200010024-7

Approved For Release 2002/08/06 : CIA-RDP78B04747A003200010024-7

I was informed that

STAT [redacted] of

Atm Map Service had received

a copy of the proposal and

had already discussed the

subject with STAT [redacted]

I then discussed the matter

STAT with [redacted] myself on

10 NOV 65 and he

recommended I have

further discussion with

STAT [redacted] this I

did on 12 NOV 65 at

which time I was informed

Approved For Release 2002/08/06 : CIA-RDP78B04747A003200010024-7

Approved For Release 2002/08/06 : CIA-RDP78B04747A003200010024-7

STAT that [redacted] of PYDS/PB was in the Process of making a study of all rectification techniques and equipment to determine the state of the art before any decision is made on need for Photographic rectification in NPIC. I then discussed the matter with

STAT [redacted] on 12 NOV 65.

5- Conclusions:

a. The Army MAP service has no requirement for the

retrofit. Rectification of 6000 series films can be done to sufficient accuracy on the existing Zoomar I Rectifier to satisfy their needs.

b. [redacted] STAT knows of no optical rectification requirement at NPIC that could use the retrofit.

c. [redacted] STAT has no firm requirement for optical rectification equipment. He is presently

sending about 15 jobs a month to ACIC for rectified prints but has no plans for in house equipment and does not expect to place a requirement on Army Map Service for certification of Series 600 films.

6. Recommendations:

It is recommended that no action be taken on the
